THESIS PROPOSAL

Title: The title of the thesis goes here

Motivation

Describe here the motivation for the thesis. Why is the topic relevant? What are the challenges? What are the expected contributions?

Expected length: 1-2 pages.

Research Questions

List here the research questions that you want to answer in your thesis. These should be specific and measurable questions that guide your research.

Expected length: 1/2 page.

State of the Art

Describe here the state of the art in the field of your thesis. What are the existing approaches? Use the corresponding sources [1] to support your description. What are their strengths and weaknesses? How does your proposed approach differ from the existing ones?

Expected length: 1-2 pages.

Methodology

Describe here the methodology that you will use to answer your research questions. What are the steps that you will take? What are the tools and techniques that you will use? How will you evaluate your results?

Expected length: 1-2 pages.

Work Plan

Describe here the work plan for your thesis. What are the milestones that you want to achieve? How will you allocate your time and resources? What are the risks and how will you mitigate them? Use the following table to outline your work plan:

Milestone	Description	Deadline
Milestone 1	Description of milestone 1	Date 1
Milestone 2	Description of milestone 2	Date 2
Milestone 3	Description of milestone 3	Date 3
Milestone 4	Description of milestone 4	Date 4
Milestone 5	Description of milestone 5	Date 5

Table 1: Work Plan for the Thesis

Expected length: 1/2-1 pages.
